 ✓ 32-bit

Dental Cavity Preparation with a SATELEC EX1 Tip

Discover Macrovision

Macrovision is the major advantage offered by the SOPRO 717 First: it goes far beyond the limits of the human eye, giving you a magnified view of up to 115 times. A single gesture, and the infinitely small appears before your eyes! In Macro Mode you can place the camera directly on the tooth surface!

- Perfect integration option into the dental chair or direct USB
- Compatibility with a video screen and/or a computer
- Image magnification up to 115 times in Macro Mode
- SOPROTOUCH capture sensor provides crisp clean images with just a feather light touch
- Exceptional image quality

Works perfectly with

 USB2 Single Cable Dock!

A success from any point of view

SOPRO 717 First's great depth of field means you obtain a sharp image in seconds no matter what mode is chosen. Perfect illumination is achieved by eight new generation LEDs.

Choose your mode -

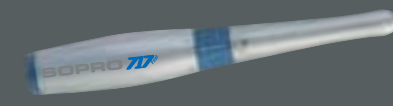

Macro mode - 0 - 5mm

Intra-Oral mode - 5 - 30mm

Extra-Oral mode - 30mm - ∞
