ACTEON, North America releases the new I-Surge+ implant motor

ACTEON North America (Mt laurel, NJ) has introduced a new, electric implant motor called I-Surge+ for easy and effective surgery and implant placement. The I-Surge+ implant motor is very powerful and efficient providing very high torque (up to 72 Ncm with a 20:1 C/A) and a very wide rpm range (20 to 2000 with a 20:1 C/A). The motor is compatible with seven different e-type contra angle ratio handpieces and has five available, customizable programs to choose from. The brushless motor needs no lubrication and the foot pedal has large color coded, touch sensitive pedals with no moving parts for ease of use and durability. Please contact your local dealer or ACTEON for more information

About ACTEON

ACTEON North America is part of The ACTEON Group, a world leader in small equipment and consumables for dentists. The ACTEON Group's companies include SATELEC Equipment, SOPRO Imaging, and Pierre Rolland Pharmaceutical which employ more than 650 workers worldwide. ACTEON continually develops innovative products for its growing international dental market.
