

NEW!

SOPRO 717^{First}

Discover Macro Vision

Many of you have asked for a version of the *SOPRO 717* without the *SOPROSHADE* that's compatible with the DOCK USB; the *SOPRO 717 First* is the answer to your request! This camera fits perfectly into your dental practice with versatility and compatibility. With it's new DSP (Digital Signal Processor) the SOPRO 717 offers you exceptional image quality.

A success from any point of view

Choose your mode -
 Macro mode - 0 - 5mm
 Intra-Oral mode - 5 - 30mm
 Extra-Oral mode - 30mm - ∞

SOPRO 717's great depth of field means you obtain a sharp image in seconds no matter what mode is chosen. Perfect illumination is achieved by eight LEDs.

Macrovision

Macrovision is the major advantage offered by the SOPRO 717: it goes far beyond the limits of the human eye, giving you a magnified view of up to 115 times. A single gesture, and the infinitely small appears before your eyes!

- Image magnification up to 115 times in Macro mode
- Exceptional quality of image
- A successful image capture thanks to SOPROTOUCH
- Perfect integration option into the dental chair
- Compatibility with a video screen and/or a computer
